BRADSTREETS.

Increasing Signs of Better Times.

Improvement in Nearly All Lines.

The Change Is Coming Faster Than was Expected.

Wool Alone Does not Feel the Impetus—Active and Growing Demand for Money.

By the Associated Press.

NEW YORK, Sept. 7.—Bradstreet's tomorrow will say: Special telegrams from the more important distributing points make it plain that in mercantile lines trade is fairly active, fully meeting the early and more favorable anticipations in the great majority of instances and exceeding them in some. Aside from the cotton mills' strike and distress in the northwest from forest fires, the week has not brought unfavorable features.

Staple prices tend upward except for wool. There is an improved demand for money at Boston, New York and Chicago, but the rates are not as high as usual in this season nor is the supply of commercial paper as large.

Northwestern wheat carriers have arranged for necessary funds with Chicago banks at 5 per cent. A striking feature at the west comes from Chicago, where the business in all mercantile lines has increased. San Francisco reports activity in all lines of business. With the ship owners in control of the ocean freight market wheat ran up 2 cents for orders for Europe.

ALLEGED BRIBERY.

The Case of Popper and Buckley in the Hands of the Grand Jury.

SAN FRANCISCO, Sept. 7.—The county grand jury today commenced an investigation of the charges recently made by A. J. Clunie against Max Popper, Christopher Buckley and Joseph Kelly in relation to alleged bribery of supervisors in order to control the street sweeping contracts. Popper and Clunie were examined, but their testimony had developed nothing up to the hour of adjournment.

LICENSED BY WAR.

The Defense of General Ezeta and His Followers.

SAN FRANCISCO, Sept. 7.—Extradition proceedings in the cases of General Ezeta and his fellow refugees was continued today in the United States district court. The prisoners testified that at the time of the commission of the acts charged against them a state of war existed in San Salvador and that the alleged murders and robberies were but incidents of the actual warfare.

Under the laws of San Salvador the defendants claim to have been justified in their every act.

INVITING DISASTER.

Nicaraguans Commit More Outrages on Americans.

NEW ORLEANS, Sept. 7.—Dictators Cabezas and Madriz have committed another outrage on Americans. At Bluefields a launch of some Americans was seized on a charge that it was used in the murder of Nicaraguans though against the wishes of the Bluefields banana company, her owners. The state department at Washington has asked the Nicaraguan government to explain.

A Deadly Fly.

ST. LOUIS, Sept. 7.—Eugene Dickson swallowed a green fly on the 4th and died on the 6th. He was playing in the kitchen and while laughing heartily swallowed the fly. An hour afterward he became ill. A physician was called and notwithstanding the boy grew worse and died in fearful agony.

A Year of Pleasure.

SAN FRANCISCO, Sept. 7.—C. F. Crocker, vice-president of the Southern Pacific, will start on a trip around the world on September 25, when he will take a steamer for Japan. The trip will be solely for pleasure and Col. Crocker will be gone at least one year.

Ignored the Investigation.

NEW YORK, Sept. 7.—Superintendent of Police Byrnes does not appear to agree with the board of investigators of the New York police. He rendered a report yesterday in which he said, as a whole, the police force was as good as could be expected.

California Democrats Organize.

SAN FRANCISCO, Sept. 7.—The Democratic state central committee was organized today by the following officers: Chairman, Frank H. Gould, of Stockton; secretary, John Monkey, and corresponding secretary, R. P. Tray.

An Efficient Trap.

PORTLAND, Ore., Sept. 7.—When C. Smith opened his store this morning he found W. H. Morehouse, a resident of Monrovia, lying in a pool of blood on the floor in front of a trap gun which Smith had set for burglars.

A Jilted Rival's Revenge.

PARKVILLE, Mo., Sept. 7.—A. C. Veatch shot and killed Charles Morris on the eve of his marriage to Miss

Jones. Both men had been courting Miss Jones. The tragedy occurred near Old Rod.

Utah's Wealth.

SALT LAKE, Utah, Sept. 7.—The assessment of the territory of Utah by the board of equalization amounts to over ninety-nine millions of dollars.

A DOUBLE BICYCLE.

A Phoenix Boy Invents a Handy and Ingenious Device.

Messrs. George Searles and Grant Randall are exhibiting an adjustment for coupling two bicycles for work on the railroad or they may be used together on the highway. The device is the invention of Mr. Searles. It consists of an adjustable coupler fastened at each end by clamps to the frame work of the bicycle. The ends are also hinged to allow for slight inequalities of speed. For railroad work a small flanged wheel both before and behind each bicycle drops down on the track and prevents the machine from leaving the track. The adjustable character of the coupler provides for an irregularity of gauge or a slight unevenness of speed without cramping the flanged wheels on it. For road work the flanged wheels may be removed or fastened out of the way above the machines.

There have been several attempts to construct couplers for bicycles but their rigidity has always rendered them impracticable. This one removes all objections. Mr. Searles does not intend to take out a patent on the device for the reason that railroads would likely object to the use of the machines on tracks if arrangements were made for their extensive manufacture.

LOCAL BRIEFS.

Nicholson has received his fall stock of suitings.

Benham, the oil man, received yesterday a fresh lot of Navajo blankets, beauties.

Chef White of the Dairy, supplies the gilt edge lunch at the new saloon on Center street.

F. M. Czarnowski, Ed Metcalf and W. W. Edwards were yesterday appointed appraisers of the estate of Thos. S. Ruff.

Last night was the regular meeting night of the department of fire police. There were not enough members in attendance for a quorum.

Three more county prisoners were turned over to the city authorities to fill the ranks of the street improvement gang decimated by the late city jail break.

Suits were brought in district court yesterday by John H. Bolton against Andrew J. Houston and also against Francis Houston and others to recover the balance due on an unsatisfied judgment.

The board of trustees of the Phoenix schools yesterday employed janitors for the coming year. H. P. Wharton takes charge of the central school building at \$50 a month. J. H. Baker is re-employed at the West End, J. W. Curns at the East End building.

The Blakey-Wilson glove contest will take place at the park tomorrow afternoon. Both men are concluding a course of hard and honest training and are in fine condition. Sporting men are pretty evenly divided as to the result.

As early as it is in the season it has already become difficult to rent desirable houses in good neighborhoods. There are, however, many small and inferior houses in certain localities not yet taken. Notwithstanding there is a greater number of houses than ever before in Phoenix, real estate men say the demand never before set in so early and so lively.

The Graham County Times is a new weekly Republican paper to be devoted to the upbuilding of the Republican party of Graham county. It is edited by Allen T. Bird and at present is issued from the office of the Oasis at Benson, in the adjoining county of Cochise. As soon as the necessary arrangements can be made the Times will be located at Solomonville.

A regular meeting of the Law and Order league was held at the Y. M. C. A. rooms last night. Eight new members were admitted and after the transaction of routine business the meeting adjourned until next Friday night. It was decided to have that portion of the constitution which describes the objects and purposes of the league printed for distribution.

A. Kirschhoff, a saloon proprietor in the Gardiner block, was arrested yesterday morning for selling liquor to Indians. There were previously two similar cases against him. In the first it appeared that the Indian who testified against him was mistaken by him for a Mexican. In the other cases Mr. Kirschhoff denies the charges and says that they were made because the Indians have it in for him.

Persons living anywhere within a radius of half a dozen blocks from Block 41 are again complaining of the gnaty which prevails in that district. On Thursday night there was a dance there attended by shouts, profanity and other disturbing and sleep destroying incidents. The orgies were continued until so near morning that it wasn't worth while for those who had lain awake all night, to go to sleep at all.

James Rennie hit P. J. Clark over the left eye last night, reopening an old sore in a double sense. The place where Mr. Rennie's fist landed had just been the location of an abscess of two months' standing, resulting from the sting of a poisonous insect. The attack was also the result of a previous trouble between the parties. Clark had made a complaint against his antagonist a few hours before, charging him with assault, and a collision was narrowly averted at that time. The affray happened at the corner of Washington and First streets.

TRACKED DOWN.

Myron Kent Instigator of His Wife's Death

Overhauled by Minneapolis Detectives.

His Guilt Is Fixed By an Accomplice's Confession.

The Murderer Says That Kent Offered Him \$1,800 to Put the Woman Out of the Way.

By the Associated Press.

DENVER, Col., Sept. 7.—The arrest of Myron R. Kent, alias J. C. Pope, at Arlington last night, for the murder of his wife at Mandan, N. D., is the result of over five months' unceasing work by the Minneapolis detective department. Until last week this crime had not been positively fixed upon him, but the charges of forgery and embezzlement which were also placed against his name on the county jail books here tonight are of several years' standing.

The murder of Kent's wife, formerly Julia Laird, daughter of the great lumberman of the northwest, occurred March 13 and Thomas Swidensky, a farm hand, was accused of the deed and although the coroner's jury found the shooting accidental, he has been in jail ever since. A week ago Walter Ehrlichman, of the Minneapolis detective department, obtained a full confession from Swidensky, who said that Kent had offered him \$1,800 to put his wife out of the way. Kent disappeared the night before the killing, but was arrested at Lincoln, Neb., escaping again before the Dakota officers could reach there. It has been since this confession was made that Kent had been located in eastern Colorado. Kent denies all connection with the crime, but declines to explain his absence from home since it occurred.

Kent appeared in Minneapolis twelve years ago, well dressed and accomplished. He won the heart of Miss Laird and notwithstanding her family's objections they were married and Kent was given a confidential position in her father's business.

In two years a shortage of \$12,000 is said to have been discovered in Kent's accounts. The daughter's pleadings so stilled the demands of the brothers, Frank and Robert B., that he was given \$2,500 and told to start out for himself. After most of the money had been spent in Chicago he became lawyer and insurance agent at Mandan, where he is said to have embezzled from the companies he represented.

When Kent was located at Arlington he was earning a living gathering and selling old bones from the prairies. He had assumed the name of J. C. Pope, an intimate friend. The arrest was made after positive criminalizing evidence had been secured from his own lips. Sheriff Bengenhimer, of Mandan, was present when the arrest was made. Detective Ehrlichman claims that Kent is a lifelong criminal, and that he has a Scotland Yard record. The officers state that Swidensky's confession is so exact in detail that there can be no chance of Kent's escape. The prisoner will be taken to North Dakota tomorrow.

BREAK OUT AFRESH.

Fires Around Grantsburg Threaten Its Destruction.

GRANTSBURG, Wis., Sept. 7.—The fires that have been burning near here for the past month broke out afresh this morning and the entire male force of this place was called out to prevent it from burning the village. The council had taken precautions and hired a crew of men to watch the fire. The heavy fires west of the St. Croix river raged last night, and have destroyed millions of feet of standing pine, also loggers' outfits and hundreds of oxen have fallen prey to forest fires.

The hay crop is almost entirely destroyed. Hundreds of tons of the settlers' hay was destroyed today. Clouds of black smoke would shoot heavenward. The fires were fanned by a heavy south wind and traveled with great rapidity. The oldest settler cannot recall any season when fires were as numerous as now. The loss to this community from fires this fall will amount to several thousand dollars.

IRRIGATION IN TEXAS.

A Movement for the Reclamation of 10,000 Acres.

SAN ANTONIO, Tex., Sept. 7.—A company has been organized here and the water right filed for the construction of extensive canals and the irrigation of 10,000 acres of land in this county, immediately south of the city. The water will be obtained from the San Antonio river. Several delegates are at Denver to attend the annual convention of the national irrigation congress.

They will all advocate the appointment by the United States congress of a commission to treat with the Mexican government with a view of securing an amendment of the treaty so that dams can be constructed at different points along the Rio Grande river, and the water of that stream used for irrigating the rich valley lands which are arid. President Diaz has written one of the Texas delegates that he is in favor of the proposed amendment of the treaty.

THREE BRIDGES BURNED.

The Duluth, South Shore & Atlantic Road is Crippled.

MARQUETTE, Mich., Sept. 7.—The western division of the Duluth, South Shore and Atlantic road is crippled by the loss of bridges in forest fires. Several of the railroads have suffered serious loss.

Reports tonight from all the lumber towns between Nestoria and the Wisconsin state line are that all are safe so far, but many are fighting fire dangerously near. At even many people have loaded their effects on a train which the South Shore officials are keeping ready to move out if necessary, and some small buildings in the outskirts have been burned. The smoke is still heavy here and the fog whistles are sounding.

Dr. Price's Cream Baking Powder
World's Fair Highest Award.

A gentle fresh milk cow for sale cheap. Inquire this office.
